Re: CTCA Spring 2010 Elections and Educational Conference

Dear Fellow Town Clerks:

In conjunction with the Secretary of the State, I call upon you to meet for our semiannual Elections Conference held in conformity with Connecticut General Statutes, Section 9-6. In this time of shrinking resources, it is important to be aware that the statute requires that we meet at semiannual conferences. I encourage towns and cities to support either your attendance or that of an assistant.

We designed the conference to give the Secretary's Office and the State Elections Enforcement Commission an opportunity to discuss with us changes in the laws that affect our duties as Town Clerks. Other State agencies will make presentations, including the Departments of Revenue Services and Environmental Protection.

In addition, the Association's Board of Directors and Education Committee are happy to make available, for educational credit, a continuing education program. The program this spring concerns access to public records.

As in the past, we are receiving significant support from our vendors. Please be sure to spend time with them. The vendors will show us the latest tools and technologies that may help us to perform our duties with greater efficiency.

Conferences provide a wonderful opportunity to spend time with your fellow clerks. We all confront the same issues and administer the same laws. Your peers are a marvelous source of help and ideas.

I look forward to seeing each of you in Waterbury from April 21 to April 23, 2010.

Joseph V. Camposeo, President
